Title:	How to configure Video Management	Version:	v1.0	Date:	10/10/2018
Product:	AX Series Wireless Security Control Panel			Page:	1 of 5

Preparation

- 1. AX Series Wireless Security Control Panel, V1.0.0 or above
- 2. Internet Explorer or 4200 (2.7.3.8)

How to configure Video Management

You can add two network cameras to the wireless security control panel, and link the camera with the selected zone for video monitoring. You can also receive and view the event video via client and Email.

1. Add Cameras to the Security Control Panel

- 1) Click System \rightarrow Network Camera to enter the network camera management page.
- 2) ClickAdd, and enter the basic information of the camera, such as camera name, IP address, and port No.
- 3) Enter the user name and password of the camera.
- 4) Click Save.

🗔 Note

You can add two network cameras for a wireless security control panel.
